

HydraFLOW[®]

HYDRAFLOW HD COOLER

The HydraFLOW HD Hydraulic Cooler is designed to fit in very tight spaces, its narrow profile allows for frame rail or behind-the-cab mounting.

Behind-the-cab bracket incorporates built-in selector/directional and speed control allowing two pieces of equipment to be operated with one hydraulic system.

HydraFLOW is designed and assembled as a complete easy to install package.

Benefits include:

- Ideal for high horsepower applications
- Maximum efficiency from hydraulic fan system
- Under 11" wide, the narrowest unit in its class
- Hidden breather reduces water contamination
- Rear mount with no flanges
- Conveniently located sight glass
